Norwich Car in Accident.  
Friday afternoon at 4 o'clock an E. M. F. make automobile, listed as belonging to A. E. Cruthers of Norwich, bearing the number 2972, figured in a slight accident on Main street, that resulted in no injury to any person, but the car itself was not so fortunate, as it was considerably damaged.

The driver was piloting the car down Main street, when opposite the Windham National bank the machine started to slide and skidded across the wet pavement from the trolley tracks and finally brought up against a post on the sidewalk between R. E. Remington's and W. J. Sweeney & Son's stores. The post was boxed in with boards. The car sustained a broken side door, damaged hood and sprung the rear axle, and rendered the off-wheel pretty wobbly. The impact of the car against the post was sufficient to turn the car completely around, not once but twice before its driver could stop it, and then the machine was headed in the wrong direction.

A big crowd gathered and not a little excitement was caused for a few moments. The driver and two other occupants of the car made a hasty exit, and then proceeded leisurely down Main street with frequent stops until the Main street macadam was reached, when there was clear going.

Those who saw the mishap consider it a lucky escape for the occupants of the automobile and breathed a sigh of relief when it was found that no one was injured.
